MUHAMMAD BAYU SATRIO

Fullstack Web | AI Engineer | IoT Specialist

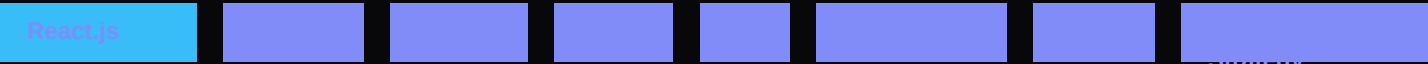

ABOUT ME

Saya adalah seorang pembelajar sepanjang hayat dengan fokus keahlian di bidang Fullstack Web Development, AI Engineering, dan Internet of Things (IoT). Saya memiliki ketertarikan kuat dalam merancang sistem yang cerdas dan terintegrasi, mulai dari arsitektur backend, estetika antarmuka, hingga otomasi perangkat keras berbasis kecerdasan buatan.

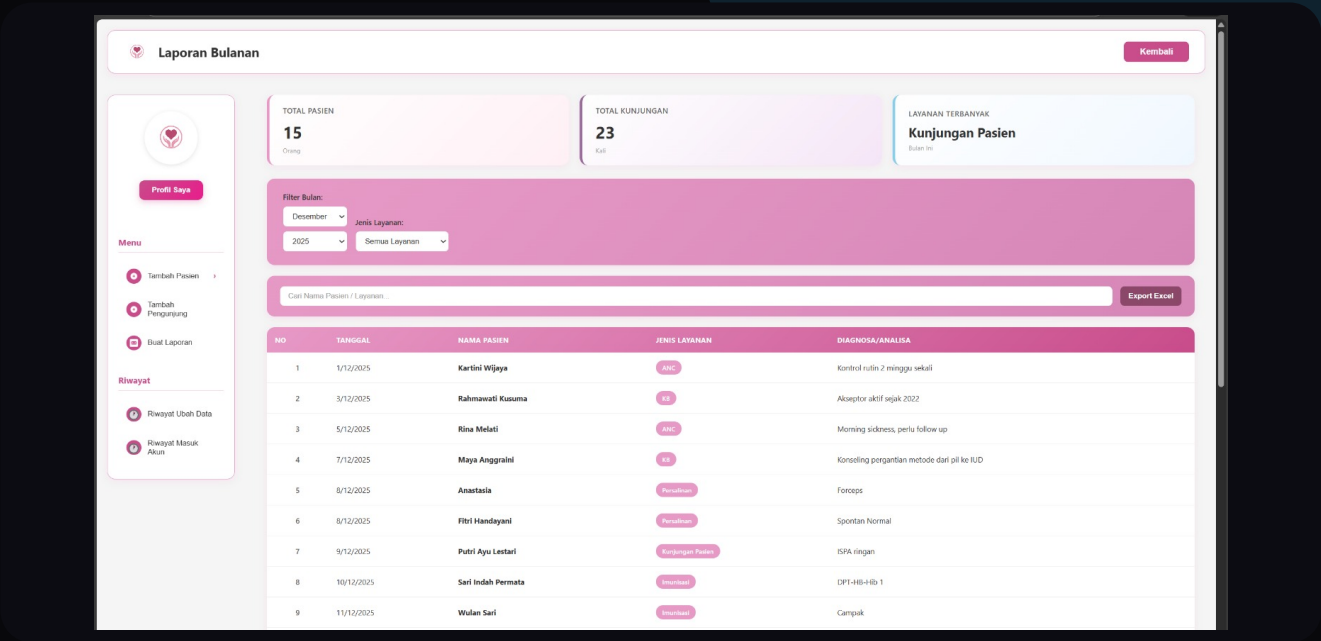

Bagi saya, teknologi bukan sekadar rentetan kode, melainkan ekosistem untuk menghadirkan solusi inovatif. Saya sangat menikmati tantangan teknis dalam ~~menggabungkan pengembangan web dengan kecerdasan buatan maupun jaringan sensor~~ (IoT) untuk menciptakan produk digital yang berdampak dan berpusat pada kenyamanan pengguna.

Core Competencies

Bidanku - Midwifery System

BACK-END DEVELOPER | 2025 – 2026

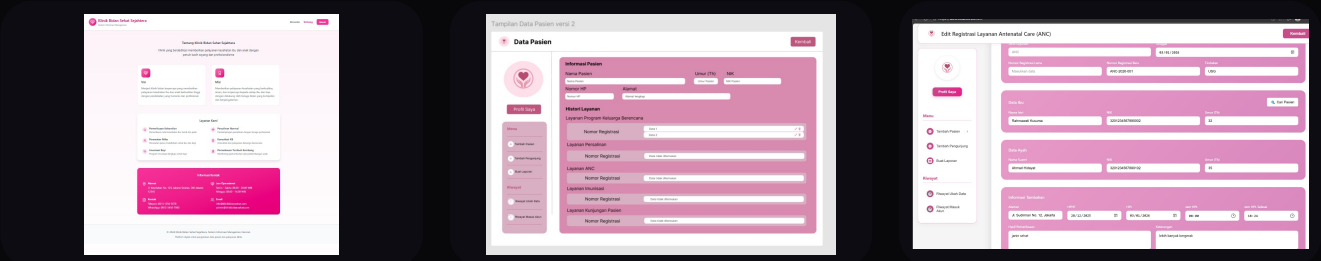

PROJECT OVERVIEW

Digital transformation of midwifery records into a centralized secure digital database for clinic management.

TECHNICAL CONTRIBUTIONS

- Architected relational database schemas for complex medical data management.
- Implemented automated medical logic for pregnancy tracking (LMP & EDD).
- Optimized high-concurrency SQL queries for monthly reporting tools.

ACETRA: Smart IoT Fermentation

CFO & ICT LEAD | Jun – Oct 2025

PROJECT OVERVIEW

Award-winning IoT monitoring system for coffee waste fermentation optimization (Gemastik XVIII Silver Medal).

TECHNICAL CONTRIBUTIONS

- Real-time parameter tracking (pH, Temperature, Gas) via Firebase integration.
- Strategic financial planning for hardware procurement and competition scaling.
- Bridged technical IoT capabilities with commercial feasibility analysis.

Hardware Setup

Monitoring App

DonasiKu - Charity Platform

FULLSTACK DEVELOPER | 2025

PROJECT OVERVIEW

Web platform for second-hand goods donation with live tracking and transparent distribution.

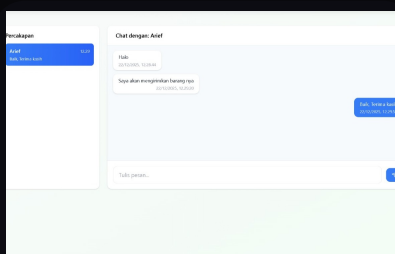

TECHNICAL CONTRIBUTIONS

- Built responsive React frontend coupled with a robust Laravel backend.
- Developed a Live Chat feature for real-time donor-recipient communication.
- Implemented a donation status tracking system for distribution transparency.
